No action taken

Art. 5. To see if the Town will vote to raise a reserve or emergency fund, as provided for by law, grant and appropriate money for the same, or act in any manner relating thereto.

Voted to dismiss the article.

Art. 6. To see if the Town will provide a place for depositing garbage and rubbish, grant and appropriate money for the same, or act in any manner relating thereto.

Voted to dismiss the article.

Art. 8. To grant money appropriated in the preceding articles.

Voted to grant the sum of \$125.00 as appropriated in the foregoing articles, the same to be paid from the treasury of 1915.

LEWIS L. DICKINSON

Town Clerk

Adjourned Meeting.

Meeting called to order by Geo. C. Thresher, Moderator, at 8:10 P. M.

Under Art. 11 of warrant for Mar. 1, 1915.

Committee on Parnell and Union streets reported that it was not up to the town to put in a drain, but to share in the roads, thereby throwing the road water to the gutters where it belongs, that the draining of the lands should be left to the owners.

Voted to appropriate \$150.00 to gravel and pave Parnell and Union streets.

The Committee under Art. 2 of warrant Mar. 1, 1915, reports:

Report of the Committee on Recommendation of the Town Auditor:

Your Committee is very clear that all town funds should be deposited either in the name of the Town of Millis or in the name of the town officer depositing such funds, with such descriptive name appended as Treasurer, Collector, etc., that the depositary may have certain notice that the beneficial interest of the fund is in the Town of Millis.

The most advisable method of deposit, in the opinion of the Committee is to have the fund stand in the name of the Town of Millis.

Your Committee also approves the recommendation of the Auditor in regard to totaling and footing the vouchers of the various departments. The reason for its recommendation is that such method obviates the chance of inserting any unauthorized item at the bottom of the list without its insertion being apparent to the disbursing officer.

In reference to the recommendation that all disbursements should be made by the Town Treasurer, your Committee is unable to make any specific recommendation. They have been handicapped by the absence of the third member of the Committee, and the two members who met were unable to agree upon a report. This recommendation, as the Committee understands, will affect only the Water Department. At the present time, all departments, except the Water Department, send statements of their various accounts to the Town Treasurer, and the monies in payment of such accounts are disbursed by the Treasurer. These departments other than the Department of Gypsy Moth Inspection do not collect any funds and therefore simply make requisitions on the Town Treasurer for payment of their accounts from the fund turned over to him by the Town Collector. The Water

The argument in favor of the proposed
Water Department is that it will be
in the interest of the Town to have
the Water Department.

The Water Department is a necessary
disbursement of the Town's funds, and
the funds of the Water Department
the health of the Town is at stake.

Your Committee has the honor to
acknowledge the receipt of the
Water Department's report, and to
approve of the same, and to
recommend the Town to accept of
the same, and to recommend
the Town to accept of the same.
The Water Department's report
merits the highest approval, and
the Town should accept of the same.
The Water Department's report
merits the highest approval, and
the Town should accept of the same.
The Water Department's report
merits the highest approval, and
the Town should accept of the same.

The argument in favor of the proposed
this Department is that the Water Department
Department is a necessary disbursement
of the Town's funds, and the funds
of the Water Department the health
of the Town is at stake.

Your Committee has the honor to
acknowledge the receipt of the
Town and to recommend the Town
to accept of the same.

Respectfully,
Yours,

James T. Hays

Meeting April 16 1915.

And I think that the fact that the world is not a perfect place is a good thing. It is a good thing because it means that there is always something to be done. It is a good thing because it means that there is always something to be learned. It is a good thing because it means that there is always something to be hoped for.

Chorus: *Indignant!* *Indignant!* *Indignant!*

Apr 15, 1944 W. W. Jones, Jr.

$\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and try to understand what happened and why it happened. They use many different sources of information, such as books, documents, and artifacts, to reconstruct the past. They also try to understand the people who lived in the past and how they thought and felt. Historians are interested in the history of the world because they want to know how we got to where we are today and what we can learn from the past.

Collector.

Mills Jan 17 1886.

REPORT ON GYPSY AND BROWN TAIL MOTH.

TO THE HONORABLE BOARD OF STREET COMMISSIONERS —

I find for the year 1915 that the gypsy moth is about the same as last year, while the brown tail moth is very few.

I also find that in all orchards and on all oak shade trees where trees have been sprayed with arsenate of lead that the gypsy moth egg clusters are very few.

The amount of gypsy moth egg clusters treated on the trees with creosote was 6,250. The number of egg clusters found was on 109 places.

There was 208 apple trees uncapped, burled and pruned during year.

There was 312 oak shade trees and 1412 rails of wood on road sides sprayed with arsenate of lead. There was 300 feet of stone walls burnt out with a blow torch and being used.

There was 272 elm trees sprayed with arsenate of lead for the elm leaf beetle. I recommend that there be no elm leaf beetle appropriation granted by the town, as the elm beetle is very scarce.

I would recommend the purchase of a new sprayer by the town, as the present sprayer is not large or powerful enough to meet the needs of the town in the spraying line, and the cost of operation double that of a high power sprayer.

I remain, yours respectfully,

EVERETT L. COLEWELL.

G. G. Hoff

Water Register.

Contract.

This agreement made this twenty-first day of April, A.D. 1915, by and between the Town of Millis, Massachusetts, hereinafter called the Town, and Herbert F. Allen of Arlington, Massachusetts.

Witnesseth that whereas the said Town of Millis has voted to extend its water system by installing a six inch pipe from its system on Curve street in a westerly direction through Curve street to Ridge street and from thence to connect with the pipe to be installed by said Allen at the side line of said Ridge street at the premises formerly known as the Emerson Farm, and to furnish water through said extension in the customary manner.

Now therefore in consideration of the above extension being made by said Town as set forth, I the said Herbert F. Allen, hereby agree to pay to said Town on the first day of January in each year hereafter beginning with January 1, 1916, a sum of money equal to four per cent of the total cost of said extension as made by said Town, said annual payments to continue for a period of five years from this date.

And I further agree to in all respects abide by all the rules and regulations of the water department of said Town of Millis as to the use of the water and payment therefor.

And I hereby further agree that the contracts and obligations on my part herein set forth shall be a lien upon my property above described until said payments are made in full.

It is also hereby agreed and understood that the total of said five annual payments may be made by me at any one time and if so made all further obligations on account of same shall cease and no further lien shall exist.

It is also agreed that said extension is to be completed by said Town on or before July 1st, 1915, and that any income received from new takers on the line of said extension

shall be deducted from said annual payment by said City during said five-year period. Cost of said license shall be not over ninety (90) cents per year.

In witness whereof I hereunto set my hand and seal on the above date.

HENRY F. AUSTIN
 CHAIRMAN
 G. G. BELL
 MICHAEL H. GALLAGHER
 WILLIAM J. HARRIS

REPORT OF INSPECTOR OF ANIMALS.

To THE HONORABLE BOARD OF SUPERVISORS.

On account of the prevailing low level of water in the San Joaquin River during the year 1915, there was no report made.

During the past year Fred H. Williams, as administrator for estate of Ann A. Hosmer, has turned over to the town from that estate the sum of \$3500.00, to be invested, and the interest to be used in the care of the Prospect Hill Cemetery.

Since receiving this fund one of the investments has been paid and the money is on deposit as follows:

| | | |
|---------------------------------------|----------|-----------|
| Stock Northern Pacific Great Northern | \$700.00 | |
| Melrose Savings bank | 1500.00 | |
| Dedham " " | 1040.00 | |
| | | \$3240.00 |
| Interest received from the above | | 177.89 |

Following are the Trust Funds Accounts:

the following is a statement of the

ACTING AUDITOR'S REPORT.

I have to certify that all accounts having to do with the expenditure of money, Sinking Funds and Cemetery Trust Funds have been audited and I find them correct. I have completed the unfinished work of the Auditor including Disbursements from November 1st to the completion of the year's business transactions, and all detail work in connection with the audit for the year 1915 and find everything correct with the following two exceptions. Referring to report of Water Commissioners. On note of \$2,000.00 due Dec. 2nd, 1913 on which \$2,000.00 was to be paid on principal annually. I find that two payments of \$500.00 each have been made in years 1914 and 1915 respectively, also amount of \$270.00 interest on moneys in Franklin Newton Medway and Natick Savings Banks should be added to the Sinking Fund for Water Works, and \$87.20 interest on moneys in Middlesex Savings Bank to apply on Hubbard, Williams and Hadden, R. W. Mann, R. J. Blake, H. Rotman and Mr. S. B. South Sinking Funds. Above transactions have been properly reported and the note is merely to correct Town Report.

I also recommend that all persons having to do with the handling of money in any way for the Town of Millis keep records and make them known and that same be checked and audited by the Town Auditor.

CORINNA C. STOTT

Acting Auditor.

Appointed by Selectmen.

The following amount of money will be required for the fiscal year from January 1, 1916, to December 31, 1916:

| | |
|--|-----------|
| Supervision and Control | \$17,000 |
| Wages of Teachers | 7,000 |
| Text book | 7,000 |
| Supplies | 2,000 |
| Janitor | 440 |
| Food | 10,000 |
| Rapids | 20,000 |
| Insurance | 25,000 |
| Health | 1,000 |
| Equipment | 200,000 |
| | — |
| | \$270,000 |
| Less estimated receipts from outside sources | 150,000 |
| | — |
| | \$120,000 |

The Committee also estimate that the sum of \$120,000 will be required for the transportation of pupils during the fiscal year January 1 to December 31, 1916. The increase over the amount appropriated for the fiscal year 1915 is necessary because of the increased number of pupils to be transported by the Street Railway.

The Committee report that the Adams School has been painted and cleaned but much needed repairs have been made.

New equipment has been added in the form of four typewriters, paper, ink, and chairs, and because of the number of pupils desiring to take the Commercial course it will be necessary to purchase at least two more typewriters.

The Committee also strongly recommend the installation of Sanitary Toilets and suitable fire escapes for the Adams School.

SUPERINTENDENT'S REPORT.

TO THE SCHOOL COMMITTEE OF MILLS.

My fourteenth annual report is herewith submitted together with suggestions for the future welfare of the school.

Following out the suggestions made in my last report, plans were made during the vacation of last summer to accommodate at least sixty pupils in the high school. The registry room is sixty-two and the entire upper floor of the new building is used by the high school. The teaching force includes three assistants and a principal. The third assistant was employed because State Aided High Schools are required to have one assistant for each twenty-five pupils or fractional part of twenty-five pupils. The State restrictions are in regard to the number of recitation periods so that no teacher may have over thirty recitations or prepared work of forty or forty-five minutes each per week.

A favorable opportunity thus came to enlarge the scope of work in the high school, and two plans were suggested for consideration: one along the lines of Household Art and Domestic Science and the other along the lines of a Commercial Course. The latter appeared to be more desirable for the present conditions, therefore the program of studies was arranged for that purpose and the ability to teach commercial subjects was required of the third assistant. Four new typewriters were purchased and one of the recitation rooms was taken for the use of the typewriting class. As all of the pupils who take the typewriting are beginners they require much time of the teacher for their supervision, therefore having but four machines, it became necessary to limit the selection of this subject to those who made a choice of

desks to provide for the natural increase, both in the grades and in the high school.

The few vacancies which occurred in the teaching force are acceptably filled. That the time has come when, in selecting a principal for the high school, we can enter the class of men who have had successful experience is evidence of progress.

Our next efforts should be to offer inducements to experienced assistants and teachers for the grades. The quality of the schools depends largely upon the ability and willingness of the teachers to put the interest of their schools above all else. The quality of the teaching is measured largely by the salary of the teacher.

Now that the annual report to the State for the cost of the support of the public schools is made at the close of the school year, it is possible to determine quite accurately our various items of expense.

The following items of expense per pupil for the year which closed July first, 1915, may be of interest. It is computed on the basis of average membership.

| | |
|--|---------|
| Cost per pupil in all the schools | \$13.52 |
| " " " the high school | 68.36 |
| " " " " elementary grades | 20.48 |
| " " " " all schools for teaching | 19.75 |
| " " " " high school for | 43.65 |
| " " " " elementary grades for teaching | 14.89 |
| " " " " all schools for books | .92 |
| " " " " high school for | 1.90 |
| " " " " elementary grades for books | .71 |
| " " " " all schools for supplies | 1.05 |
| " " " " high school for supplies | 3.15 |
| " " " " elementary grades for supplies | .60 |
| " " " " all schools for janitor service | 2.52 |
| " " " " " fuel | 1.57 |

Our schools are well organized, and, we believe, they are making excellent progress with the improvements of the present year. We ought not to be content with this, however, but should look ahead to see what can be done to further improve both the organization, the equipment and the product. Here are some of the things which might be done. The Ellice School building needs to be painted, or else the outside walls should be shingled. The building is old and difficult to heat. Shingling over the loose clapboards would serve to save fuel and add to the comfort of the children.

The Adams School should be provided with modern sanitary arrangements. It would be a fine movement to establish a course in Household Arts and Domestic Science. The State Board of Education now allows the graduates of the Domestic Science Department in the Framingham Normal School to teach elementary science in State aided high schools. We could employ one of these graduates to teach in our high school and establish the Household Arts course without adding greatly to the expense. A lunch room ought to be fitted up for those children who have to be away from home during the noon hour. The Adams School should be provided with electric lights. The inside walls of the new building have never been tinted or painted and they are becoming unsightly with the accumulation of dirt. Apparatus for the use of the children on the play ground would be acceptable.

The age of admission should be raised so that none

would be under five years on the last month of the term of the school year.

The reference library in the high school has made some very substantial additions. This fact is a pressing need.

The aid given by the graduates of the school has been toward procuring a better plan for the school library, and all those who contributed to the purpose have not lessened the importance of the library as another important part of the school.

Generous cooperation on the part of the community has led to the successful progress of the school. The school operation when a question of the school is being considered under consideration, the school is always ready to be thereby become a part of it. We should give credit to the value in our time, energy, and effort expended.

Respectfully,
M. J. White

Superintendent of Schools
Millis, Mass. February 27, 1911

REPORT OF SUPERVISOR OF MUSIC.

Mr. M. J. West, Superintendent of Schools.

Dear Sir,—I herewith submit my third annual report of the work in music in the public schools.

The same plan of work in the grades has been followed for the past two and a half years, and I am glad to be able to report that in general there has been gradual improvement from year to year.

The improvement most noticeable is in the matter of solo singing. This is largely due to the monthly singing tests given by the teachers one day each week and to the supervisor once each month. I believe that individual imitations are as necessary in music instruction as in any other line of school work and results prove that a greater degree of ability in concert work is reached, where individual singing is required. This develops independence on the part of each child, and as a result the part singing also is much improved.

The piano which was purchased last year for use in the high school is proving very satisfactory. The fact that we are able to have it in the assembly room with the chorus is a great aid in the singing which shows an improvement over last year. The renewed interest on the part of the boys is very gratifying.

In closing I wish to thank the teachers and the principal for their interest and helpful co-operation.

Respectfully submitted

CARLENE E. TRAYLOR

Supervisor of Music.

Miss Mary Turner, Secy.

REPORT OF SUPERVISOR OF DRAWING.

Mr. M. J. West, Superintendent of Schools.

In the grade work I have tried to make the children more benefited by having them do perspective drawings of parts of buildings. One example of this has been given on the upper grade on the opposite page. It is a drawing of a house surrounding and how much long.

One day does not allow time for this kind of work in drawing and manual training. This work is limited to the sixth grade and the upper grades of the city school. It consists of drawing, painting, book binding and chair caning. To get satisfactory work I must spend at least an extra half day and a good deal more.

Respectfully submitted,

H. M. M. M. M.

Supervisor of Drawing.

ROLL OF HONOR.

One Year.

Sivyl Enegren, Mary Murphy, Helen Richardson
Harold Simpson, William Ross Simpson.

Half Year

Nesbit Clark, Edna Gustafson, Gladys Hoag, George
Holbrook, Mary Hunt, Eleanor Moran, Margaret Moran,
Mary Niland, George Olson, Mariory Richardson, Ruth
Richardson, Alfred Simpson, Dorothy Thorne, Alfred
Young, Faith Young.

*The registers now furnished by the State are arranged
to keep the records in half year blocks therefore it would be
difficult to enter the Roll of Honor in terms as we have done
in the past.

Measles and whooping cough reduced our list last year.
